Other: extend a route to San Rafael High School

Comments: *

I would like to know if Marin Transit can extend their route to San Rafael High School. We have a very easy access to the entrance and exit in our front parking lot to our school. Each day, hundreds of our students travel to school via the bus. We are concerned for a safety factor that our students are crossing streets during busy hours of the mornings and afternoons. I would be happy to speak more in depth as to why the school feels it would be beneficial not only for our students, but for the community as well. Thank you.
